Albania – Decades of Architecture in Political Context

10 October to 22 November 2019

- Theme:** The latest Architektur im Ringturm exhibition raises the curtain on Europe's "terra incognita": Albania. Architecture is a relatively new discipline in the unknown land of the Shqiptars. Since the fall of the Communist regime, the development of architecture in the country has revolved around transition in all its various manifestations. The upcoming exhibition is an unmissable show that brings together a remarkable selection of rare architectural artefacts from the past century from across Albania.
